DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group 1, claim(s) 1-20, drawn to an aircraft and method of manufacturing an aircraft.

Group 2, claim(s) 21-23, drawn to a pre-fabricated floor module for an aircraft.

2. The inventions listed as Groups 1-2 do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Group 1 requires an aircraft defining a cargo compartment and a method of manufacturing an aircraft comprising the steps of building a cargo compartment, while Group 2 does not explicitly require an aircraft cargo compartment or an entire aircraft, as in Group 1. The pre-fabricated floor module could be used or found in a boat, road vehicle, or static land structure, while the invention of Group 1 is an aircraft.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does

Art Unit: 4114

not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.
